

# STUDY ABROAD PROGRAMME

**GALWAY CULTURAL INSTITUTE**  
at Galway Business School

The SAY programme is specifically designed for students outside the EEA who wish to develop their skills and fluency in English, develop transferable digital and business skills and enjoy a unique experience of living and studying in Galway. SAY programme consists of 25 weeks tuition and 8 weeks holidays and it gives students the opportunity to work part-time while studying.

These courses are designed for non-native English speakers to build confidence, participate and learn by doing, seeing, and traveling. Students interested in attending university or college in Ireland are encouraged to take advantage of the university pathways programmes delivered at GCI.

Our Study Abroad Academic Year programmes are specifically designed for non-EEA students. The SAY programmes can be structured to suit everyone's requirements and a suitable study path is designed for the student based on the starting level, academic needs and learning objectives.

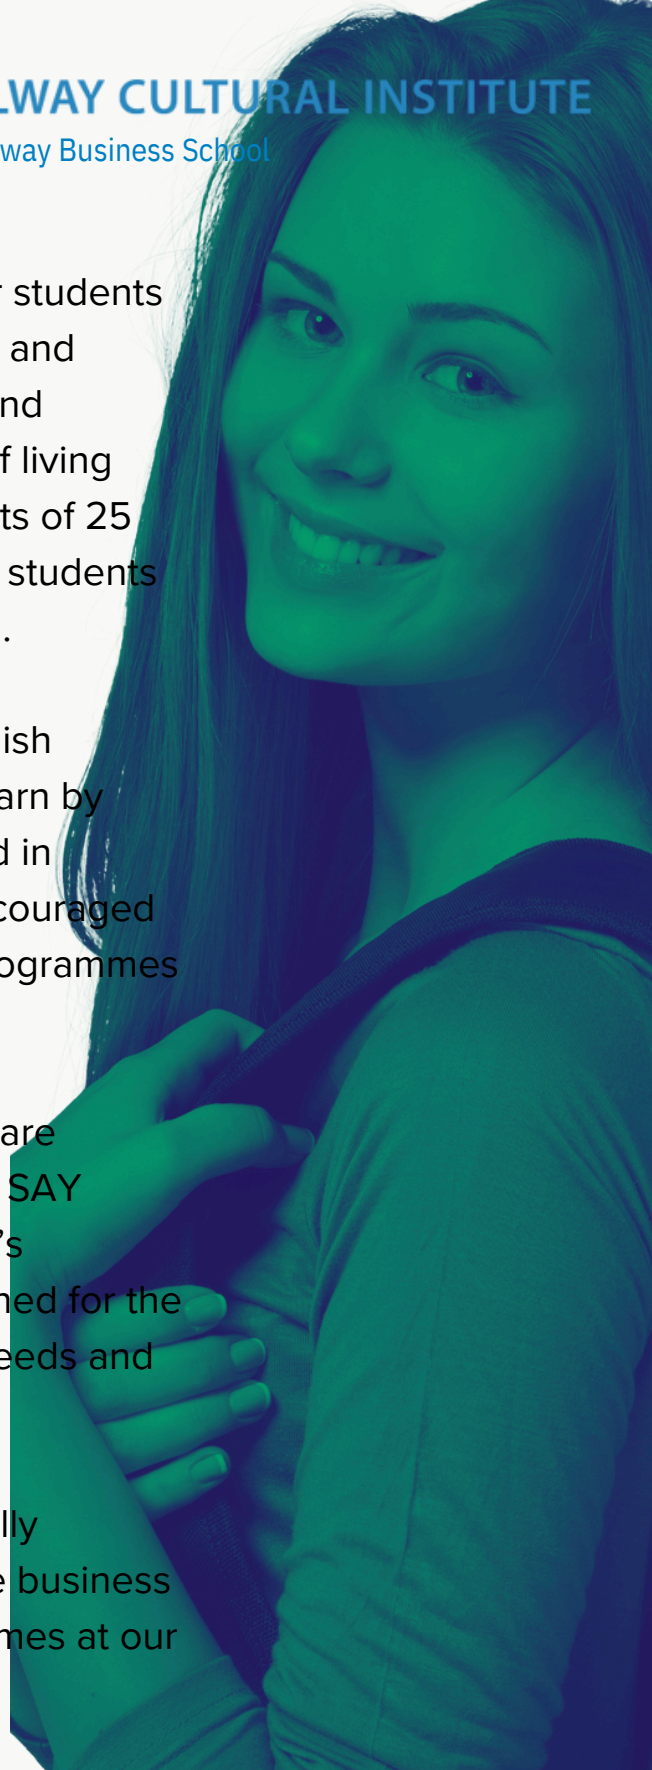

The SAY Business English courses are specifically designed to help you develop your career in the business field or progress into higher education programmes at our sister school, GBS.
